## How To Use Your Dial Telephone

### 1. BE SURE OF NUMBER.

Please obtain the desired number from the latest issue of the telephone directory. If the listing is not found call "Information."

### 2. DIAL TONE.

Remove the hand unit and upon hearing DIAL TONE (a steady humming sound), dial promptly.

### 3. DIAL THE NUMBER AS IT APPEARS IN THE DIRECTORY.

### 4. IF YOU MAKE A MISTAKE IN DIALING.

If your finger slips or if you make a mistake in dial-

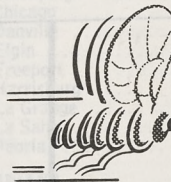

ing, hang up, remove your hand unit again, listen for dial tone, and dial the complete number.

### 5. RINGING SIGNAL.

After you have completed dialing, a soft bur-rr-ing sound will be heard. This means that the called telephone is ringing. Please give your party ten rings (one minute) or more to answer.

### 6. BUSY SIGNAL.

A rapid buzz-buzz indicates that the called line is busy. When you hear it, please replace your hand unit and try again in a few minutes.

## How To Dial Another Party On Your Line

A rapid selector brings the desired name and number into calling position. Then - like magic - ONE TOUCH completes your call.

1. Its electro-mechanical memory can accommodate your personal directory of a few dozen numbers or up to 350 names and telephone numbers, (and up to 850 for small additional charge).
